Positive: Punctuality

I recently had the pleasure of working with Revive, and I couldn't be happier with the results. When a pipe burst in my home, I was left with significant water damage and mold growth. I was feeling overwhelmed and didn't know where to turn, but a friend recommended Revive when I asked who has used a water damage company on Facebook. They told me they used them a few months back. From the moment I called, the team at Revive was professional and very friendly. The technicians arrived at my home promptly and got to work right away. They were thorough and meticulous in their assessment of the damage, and they explained the process to me step by step. They worked quickly and efficiently to remove the water and dry out the affected areas, and they were careful to minimize any additional damage.

After the water damage restoration was complete, they got rid of the mold. They were thorough and took all necessary precautions to ensure that the mold was completely removed and that the affected areas were properly treated to prevent future growth.

Overall, I was extremely impressed with the level of service and professionalism provided by Revive Water Damage of Fort Lauderdale. They made a stressful situation much easier to handle, and I am grateful for the excellent work they did in my home. I would highly recommend Revive to anyone in need of water damage restoration or mold removal services.

The team was super helpful and prompt in arriving at my home after we had an emergency. They were also very professional and did a nice cleanup of my flood damage and the mold removal after we had a pipe burst in the roof. I will definitely use them again if I ever need any kind of water damage repair or restoration, but I hope not! Revive Water Damage of Fort Lauderdale is the best company if you need restoration work.

Positive: Quality, Value

Revive Water Damage helped us fix some pretty had structural damage that we had from a bust water pipe. The damage repair that took place was very quick also. There were 5 different people I dealt with, and all were professional, timely, and did a great job communicating with us each step of the way. My family is so grateful and we really do mean it when we vouch for them and pass on our recommendation to anyone in Fort Lauderdale.

Working with Revive Water Damage was flawless. They offered me an immediate quote after being readily available to go evaluate my kitchen, which required a good amount of work from a burst pipe that collapsed the sink and the counter top with water flooding everywhere. Plus the mold that needed to be taken care of. They were very thorough in explaining how the job work would be done, externally detail-oriented, and readily available at a moment's notice. When I called they were at my home within about 50 minutes. Now that's service! I highly recommend the guys in Fort Lauderdale for water extraction and damage restoration and mold removal.
