Positive: Punctuality, Quality, Value

I cannot say enough good things about working with Revive Water Damage Restoration of Miami. Perfect from start to finish. When we has a small issue with flooding from our dishwasher. I had them come to clean and do the restoration. They were so understanding and made a time of high stress go smoothly. They ensured I was informed and comfortable with everything throughout the entire process. And got our place back to normal rather quick.

Positive: Professionalism, Value

Revive Water Damage Restoration of Miami is the BEST!! They are extremely knowledgeable and trustworthy. Their main focus is you. Once you call they go above and beyond to help you get everything sorted out. They gave me suggestions for various thing they could so. And dealt with the removal of the water that flooded out place plus the mold. They were also available to answer my questions when I called back several times. The team really went above and beyond to make sure everything was dealt with during the water damage restoration and mold remediation process. We highly recommended them.

NEW

Positive: Value

Revive Water Damage was amazing while helping us fix our water damage and the restoration that followed. The work comes out so clean. What I mean is everything they did was with care. There was no stuff left everywhere. The renovation work they did after drying up the water damage looked amazing also. Everything was seriously so good. Their demo and rehab ended up giving us a better kitchen and living room than we had before. Their interior designers were amazing!! Besides that, they made us feel comfortable when they were in our home. They gave us a few recommendations on how to prevent water damage in the future also which we implemented. They were a blessing to our home in Miami.

Positive: Professionalism, Punctuality, Quality

I'm so happy I found your company. Thank so much for helping with fixing the water damage we had in our kitchen from the burst pipe. This company helped us with about what would have been two feet of water if we had to measure it had it not be extracted so fast. It flowed out from under the kitchen sink that damaged so many things inside our living room and dining area. Everything was dealt so fast. You were here within an hour like your website said and everything was just done so well. Plus the fact you helped us deal with the insurance company when they were trying to deny the claim was just amazing. You are the reason we got it approved. Thanks so much!!

Positive: Responsiveness, Value

This company was recommended by my plumber. Revive was at our house within an hour and began water removal immediately. They thoroughly described the process they will follow and the time needed for the water restoration and mold remediation. During this extremely stressful situation, they honestly brought confidence to us that mad us less stressed out in such an already stressful situation. I am very pleased with this company overall and will use them again as long as I live in Miami and need their services again.
